

[For full information concerning the filling out of this form refer to Article 4 of Rules and Regulations Pertaining to Appropriation of Water]

STATE OF CALIFORNIA—STATE WATER RIGHTS BOARD

Application No. 19510 Filed June 29, 1960, at 4:09 P.M.
(Applicant must not fill in the above blanks)

APPLICATION TO APPROPRIATE UNAPPROPRIATED WATER
AMENDED APPLICATION RECEIVED 9-27-60

I, John A. Fulton dba Fulton Water Company
Name of applicant or applicants
of 2012 Pennsylvania Court, West Sacramento County of Yolo
Address California, do hereby make application for a permit to appropriate the
State of following described unappropriated waters of the State of California, SUBJECT TO VESTED RIGHTS:

Source, Amount, Use and Location of Diversion Works

1. The source of the proposed appropriation is Lake Tahoe
Give name of stream, lake, etc., if named; if unnamed state nature of source and that it is unnamed
located in Placer County, tributary to Truckee River

2. The amount of water which applicant desires to appropriate under this application is as follows:

(a) For diversion to be directly applied to beneficial use 2 0.82 cubic feet per
1 cubic foot per second equals 40 statute miner's inches or 646,317 gallons per day
second, to be diverted from January 1 to December 31 of each year.
Beginning date Closing date

(b) For diversion to be stored and later applied to beneficial use 1 acre-foot
1 acre-foot equals 325,851 gallons
per annum, to be collected between _____ and _____ of each season.
Beginning date Closing date

NOTE.—Answer (a) or (b) or both (a) and (b) as may be necessary. If amount under (a) is less than .025 cubic foot per second, state in gallons per day. Neither the amount nor the season may be increased after application is filed. If underground storage is proposed a special supplemental form will be supplied by the State Water Rights Board upon request.

3. The use to which the water is to be applied is domestic and municipal
Domestic, irrigation, power, municipal, mining, industrial, recreational
purposes.

4. The point of diversion is to be located (1) N 735' and E 2319.27' from S¹ corner of Section 21,
State bearing and distance or coordinate distances from section or quarter section corner
T16N, R17E, MDB&M, (2) E 330' from center of Section 28, T16N, R17E, MDB&M.

being within the (1) SE¹ of SE¹ (2) SW¹ of NE¹
(1) 21 State 40-acre subdivision of public land survey or projection thereof
of Section (2) 28, T. 16N, R. 17E, M.D.B. & M., in the County of Placer
(1) SW¹ 28 16N 17E MDB&M

5. The main conduit terminates in (2) SE¹ of Sec. _____, T. _____, R. _____, B. & M.
State 40-acre subdivision of U. S. Government survey or projection thereof

Description of Diversion Works

NOTE.—An application cannot be approved for an amount grossly in excess of the estimated capacity of the diversion works.

6. Intake or Headworks (fill only those blanks which apply)

(a) Diversion will be made by pumping from intake line extending approximately 200' into Lake
Sump, offset well, unobstructed channel, etc.

(b) Diversion will be by gravity, the diverting dam being _____ feet in height (stream bed to
level of overflow); _____ feet long on top; and constructed of
Concrete, earth, brush, etc.

(c) The storage dam will be _____ feet in height (stream bed to spillway level); _____ feet
long on top; have a freeboard of _____ feet, and be constructed of
Concrete, earth, etc.

7. Storage Reservoir
Name

The storage reservoir will flood lands in _____

Indicate section or sections, also 40-acre subdivisions unless shown upon map

It will have a surface area of _____ acres, and a capacity of _____ acre-feet. If reservoir has a
capacity of 25 acre-feet or more fill in the following: Diameter of outlet pipe _____ inches; length _____ feet;
difference in elevation from spillway level to highest point of outlet pipe _____ feet; fall in pipe _____ feet.

In case of insufficient space for answers in form, attach extra sheets at top of page 3 and cross reference.

The water will not be returned to Name return
Site 40-acre subdivision in

The size of the nozzle to be used is inches.

The nature of the works by means of which power is to be developed is Turbine, Pelton wheel, etc.

The use to which the power is to be applied is For distribution and sale or private use, etc.

The maximum theoretical horsepower capable of being generated by the works is Second feet \times fall \div 8.8

The maximum amount of water to be used through the penstock is cubic feet per second.

14. Power Use. The total fall to be utilized is Difference between draft tube water level and first free water surface above feet.

The irrigation season will begin about and end about Beginning date Closing date

Note.—Care should be taken that the various statements as to acreage are consistent with each other, with the statement in Paragraph 11, and with the map.

Richard acres; general crops acres; pasture acres.

The segregation as to crops is as follows: Rice acres; Alfalfa acres;

13. Irrigation Use. The area to be irrigated is acres.

Attach supplement at top of page 3 if necessary.

Nature of Right (irrigation, appropriative, purchased water, etc.)	Year of First Use	Use made in recent years including amount if known	Season of Use	Source of Other Supply
1. Ridgetop	1976	Annually	Summer	Lake Tahoe
2.				
3.				
4.				

12. Other Rights. Describe all rights except those on file with the State Water Rights Board under which water is served to the above named lands.

If applicant does not own land wherein use of water will be made, give name and address of owner and state what arrangements have been made with him.

Land is to be developed as a residential and business subsection

All joint owners should include their names as applicants and sign application at bottom of third page.

Do(es) applicant(s) own the land wherein use of water will be made? No Jointly? Yes or No

40-acre tract, describe area in a general way and show detail upon map.

Section 21, T16N, R17E, MDRM, as shown on map filed with State Water Rights Board

Survey were projected. In the case of registration use state the number of acres to be irrigated in each 40-acre tract if space does not permit listing of all

within NW $\frac{1}{4}$, NE $\frac{1}{4}$, SW $\frac{1}{4}$ and NW $\frac{1}{4}$ of SW $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 28, T16N, R17E, MDRM, SE $\frac{1}{4}$ of

11. Place of Use. Within the boundary of the service area of Fulton Water Company

Description of Proposed Use

The water will be completely applied to the proposed use on or before July, 1961

Construction work will be completed on or before September, 1960

Construction work will begin on or before August 1, 1960

Completion Schedule

The estimated cost of the diversion works proposed is \$ 3000.

Give only cost of inlet, or headworks, pumps, storage reservoirs and main conduits described herein.

9. The estimated capacity of the diversion conduit or pumping plant proposed is 1000 gallons per minute

Note.—If a combination of different sizes or kinds of conduit is to be used, attach extra sheets with complete description, also show location of each clearly on map.

1,000 feet; total ~~max~~ from intake to outlet 275 feet; kind Welded Steel

Riveted steel, concrete, wood-frame, etc.

(b) Pipe Line: Diameter 6 inches; length 1200 feet; grade 250 feet per

feet; depth of water feet; length feet; grade feet per 1,000 feet; materials of construction Earth, rock, timber, etc.

(a) Canal, ditch, flume: Width on top (at water line) feet; width at bottom feet; depth of water feet; length feet; grade feet per 1,000 feet; materials

Crosses out two not used

DO NOT WRITE IN THIS SPACE
ATTACH EXTRA SHEETS HERE

15. Municipal Use. This application is made for the purpose of serving Ridgewood and Adjoining Subdivisions having a present population of 200 Homes

Name city or cities, town or towns. Urban areas only

The estimated average daily consumption during the month of maximum use at the end of each five-year period until the full amount applied for is put to beneficial use is as follows:

This application together with Application Number 18248 will serve water to about 700 Residential lots. Application Number 18248 is for 1 cubic foot per second this application is for 2 cubic feet. Average daily use during the maximum months is 1960 - 300,000 - 1961 - 470,000 - 1962 - 650,000 1963 - 1,500,000 - 1964 - 1,500,000.

16. Mining Use. The name of the mining property to be served is _____
Name of claim

and the nature of the mines is _____
Gold placer, quartz, etc.

The method of utilizing the water is _____

It is estimated that the ultimate water requirement for this project will be _____
Cubic feet per second, gallons per minute. State basis of estimate

The water will not be polluted by chemicals or otherwise _____
Explain nature of pollution, if any

and it will not be returned to _____ in _____ of _____
Name stream State 40-acre subdivision

Sec. _____, T. _____, R. _____, B. & M.

17. Other Uses. The nature of the use proposed is _____
Industrial, recreational, domestic, stockwatering, fish culture, etc.

State basis of determination of amount needed. _____
Number of persons, residences, area of domestic lawns and gardens, number and kind of stock, type

700 Residential lots plus 100 acres of land to be developed are in the service area industrial use, and unit requirements of the Fulton Water Company. Growth basis was estimated to be 100 homes a year in this area and water needs were estimated at 3 gallons per minute per service connection. Fulton Water Company presently serves approximately 200 customers in this area.

General

18. Are the maps as required by the Rules and Regulations filed with Application? Yes _____ If not, state specifically the time required for filing same _____
Yes or No

19. Does the applicant own the land at the proposed point of diversion? Yes _____ If not, give name and address of owner and state what steps have been taken to secure right of access thereto _____
Yes or No

20. What is the name of the post office most used by those living near the proposed point of diversion?
Carnelian Bay P. O. Lake Tahoe, California

21. What are the names and addresses of claimants of water from the source of supply below the proposed point of diversion? This is a lake diversion.

A

Section 1392. Every permittee, if he ceases a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State before shall at any time be assessed to or claimed for issuance of this division (of the Water Code), or for any rights granted to or purchased by any permittee under the regulations of this division (of the Water Code), or for any rights granted to or acquired under the provisions of this division (of the Water Code) for any purpose in connection with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the conditions herein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued makes it subject to the conditions herein expressed.

Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

This permit is issued and permits it subject to the following provisions of the Water Code:

8. Permittee shall allow representatives of the State Water Rights Board and other parties, as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this permit.

7. All rights and privileges under this permit including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the State Water Rights Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable method of use or unreasonable method of diversion of said water.

6. Progress reports shall be filed promptly by permittee on forms which will be provided annually by the State Water Rights Board until license is issued.

5. Complete application of the water to the proposed use shall be made on or before December 1, 1970.

4. Said construction work shall be completed on or before December 1, 1969.

3. Actual construction work shall begin on or before July 1, 1964, and shall thereafter be prosecuted with reasonable diligence, and if not so commenced and prosecuted this permit may be revoked.

2. The maximum amount herein stated may be reduced in the license if investigation warrants.

1. The amount of water appropriated shall be limited to the amount which can be beneficially used, and shall not exceed 0.82 cubic foot per second by direct diversion year-round. The instantaneous rate of diversion under this permit may exceed said rate, provided that the amount of water appropriated under this permit is equivalent to a continuous flow of 0.82 cfs). Total appropriation not exceeded 50.5 acre-feet in any month (equivalent to a continuous flow of 0.82 cfs). Total appropriation not exceeded 18248 shall not exceed 314 acre-feet in any year.

This is to certify that the application of which the foregoing is a true and correct copy has been considered and approved by the State Water Rights Board SUBJECT TO VESTED RIGHTS and the following limitations and conditions:

PERMIT No. 14332
